WHAT'S EURE4TROPHY?

MORE THAN A RALLY, A LASTING STUDENT AND HUMANITARIAN LEGACY

Eure4trophy is not just a fleeting student project. Born from the initiative of Léonard and Antoine, two passionate engineering students, this association aims to establish a true tradition within EURECOM. Our goal? To acquire, restore, and prepare a legendary Renault 4L that will become a symbol of our school's commitment and dynamism.

THE CONCEPT: A SUSTAINABLE LEGACY

Our vision is built to last through a responsible and sustainable approach. The Eure4trophy 4L won't just make a single trip. Every year, this exact same car will be handed down to a new pair of students from the school, allowing them to take on the 4L Trophy in their turn. This represents a continuous technical challenge for us as future engineers, as we will need to maintain, fix, and optimize the vehicle year after year.

AN OUTSTANDING SHOWCASE FOR OUR SCHOOL AND PARTNERS

Supporting Eure4trophy means becoming part of an adventure followed by thousands of people. From the campus all the way to the Sahara dunes, our 4L is designed to be a powerful communication tool. It will proudly carry the colors of EURECOM and our sponsors, proving our ability as students to manage a large-scale logistical, mechanical, and entrepreneurial project.

WHAT'S EURE4TROPHY?

OUR DRIVING FORCE: SOLIDARITY

Beyond the sporting and mechanical challenge, Eure4trophy is deeply focused on helping others. The core mission of the 4L Trophy is to deliver dozens of kilos of school, medical, and sports supplies to children in the Moroccan desert. Through this project, we want to forge strong social bonds and provide concrete support for education in Morocco.

THE FOUNDING CHALLENGE: WRITING THE FIRST CHAPTER

To kick off this incredible story and secure this adventure for future generations of students, we must first cross our own starting line: financing the purchase and preparation of our very first 4L. By supporting Léonard and Antoine today, you aren't just funding a race; you are laying the foundation of a human, technical, and humanitarian journey that will make our school shine for years to come.

MEET THE CREW

TWO STUDENTS, ONE VISION

We are Léonard and Antoine, two engineering students at EURECOM (Sophia Antipolis) specializing in Data Science. Accustomed to handling algorithms and solving complex problems, we have decided to trade our keyboards for wrenches. Our complementary skills and determination are our best assets to drive the Eure4trophy project to success and lay the foundation for this new student legacy.

LÉONARD (LÉO)

"Originally from La Rochelle, I completed two rigorous years of intensive preparatory classes at Lycée Clemenceau in Nantes before joining EURECOM. Athletic, outgoing, and deeply ambitious, I am always hungry for a new challenge. Eure4trophy embodies exactly what I am looking for: the perfect intersection of a demanding mechanical adventure, teamwork, and a meaningful humanitarian impact."

ANTOINE (TINO)

"After three intensive years of preparatory classes in Paris, I joined EURECOM eager to invest myself in a project with real meaning. Passionate about tennis and a strong team player, people often describe me as approachable and kind-hearted. For me, Eure4trophy is the ultimate opportunity to channel our energy into providing concrete help for children in the desert."

THE 4L TROPHY CHALLENGE & THE CAUSE

EUROPE'S LARGEST STUDENT RALLY AND A DRIVING FORCE FOR EDUCATION.

THE ADVENTURE: 6,000 KM, NO GPS, ONE LEGENDARY CAR

The 4L Trophy is a legendary orienteering rally spanning France, Spain, and the unforgiving Moroccan Sahara. Reserved exclusively for students, this unique adventure strips away modern technology. Navigation is done old-school: with a map, a compass, and a roadbook. There is no GPS and no speed record to beat. The ultimate goal is to cross the finish line by covering the fewest kilometers possible, relying entirely on teamwork, mechanical resourcefulness, and the iconic Renault 4L.

THE MISSION: DRIVING WITH PURPOSE

Beyond the dust, the dunes, and the mechanical challenge, the 4L Trophy is a deeply humanitarian mission. The rally officially partners with the French Red Cross and the charity Enfants du Désert (Children of the Desert), which works to improve access to education for children living in remote areas of southern Morocco.

THE 4L TROPHY CHALLENGE & THE CAUSE

OUR CONCRETE IMPACT

Every participating car is a delivery vehicle for hope. As part of our commitment, the Eure4trophy crew will transport at least 50 kg of school supplies, sports equipment, and medical gear directly in the trunk of our 4L. These donations are handed over to local schools and NGOs upon arrival. Furthermore, the global event raises funds to build new classrooms and infrastructure in the desert.

PROJECT ROADMAP

OCTOBER

- Official creation of the Eure4trophy association.
- Launch of our sponsorship campaign and first sponsors

NOVEMBER

- Active search and acquisition of our Renault 4L
- Sponsorship campaign

DÉCEMBER

- Finalizing sponsorship agreements.
- Beginning engine repairs and chassis reinforcement

JANUARY

- Bodywork preparation, painting, and applying sponsor decals (stickers).
- Our 4L officially becomes a rolling showcase for our partners.

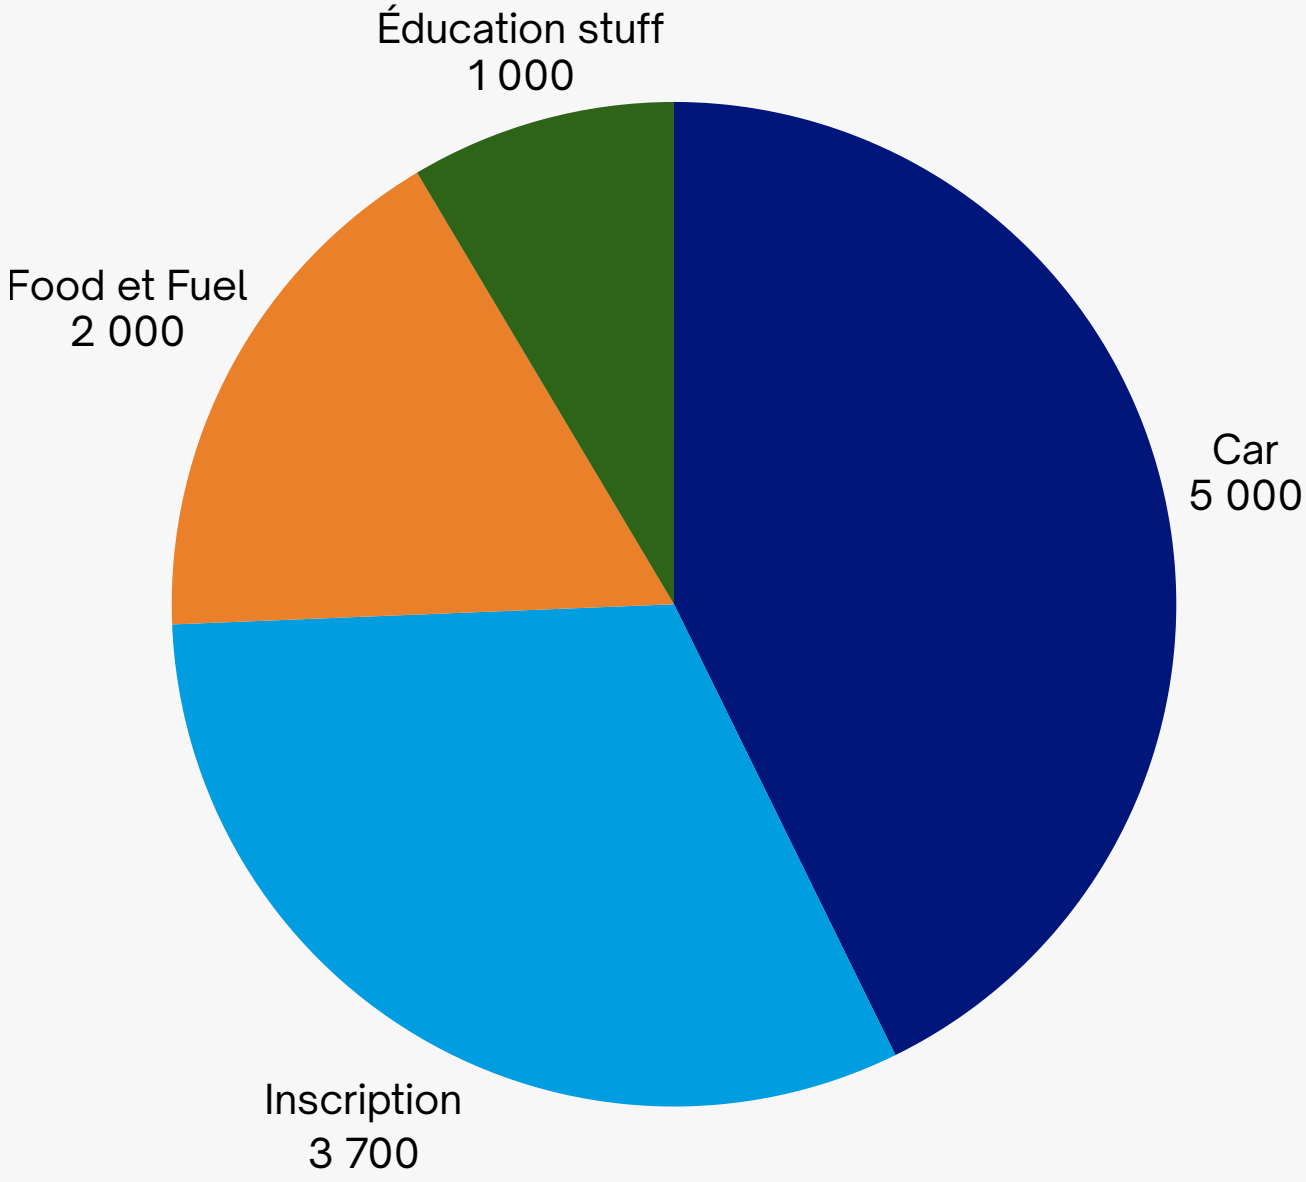

FEBRUARY

- Driving from EURECOM to the official starting village in Biarritz.
- Technical and administrative checks by the 4L Trophy organization.
- Crossing Spain and starting the rally in the Moroccan desert!

BECOME A PARTNER: CAR ARCHITECTURE & VISIBILITY

Choose your spot and ride with us! We have divided our Renault 4L into strategic visibility zones to fit different budgets. Your logo will not only cross 3 countries but will also be permanently showcased on the EURECOM campus.

PREMIUM PACK – The Red Zones (€1,500+)
Locations: Front Hood (Capot) or Front Doors (Portières).
The Perk: Maximum exposure. These are the most photographed areas of the car. Your brand will be front and center in every video, press release, and official picture.
Only 4 premium spots available.

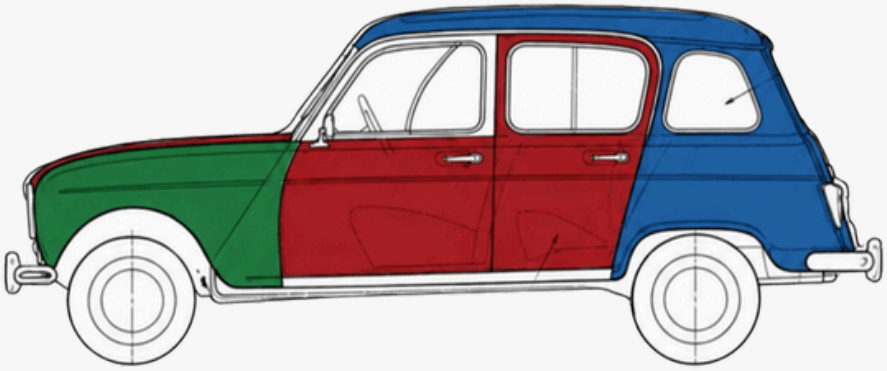

GOLD PACK – The Blue Zones (€900)
Locations: Trunk (Coffre), Rear Fenders (Ailes arrière), or Roof Banner (Bandeau pare-brise).
The Perk: High visibility in traffic and an excellent size-to-price ratio. Perfect for bold logos that need to be seen clearly from afar by the public and students.
Only 6 gold spots available.

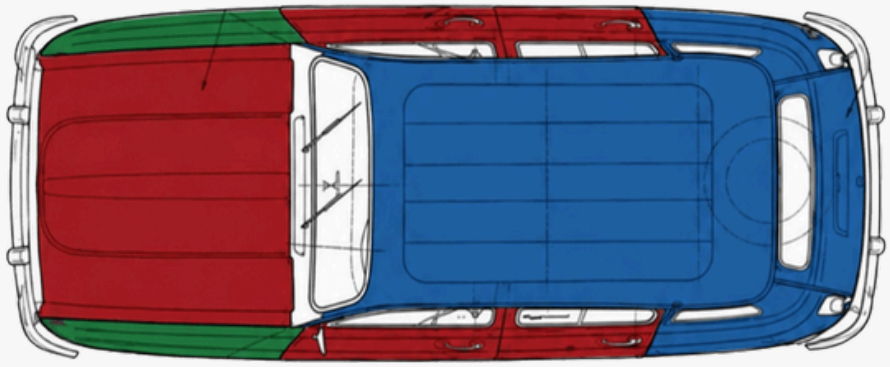

SILVER PACK – The Green Zones €450)
Locations: Front Fenders (Ailes avant) or Rear Windows (Custodes).
The Perk: A strategic and dynamic placement. A great way to support our adventure and get your brand moving across the desert at an accessible cost.
Only 6 silver spots available.

CUSTOM PARTNERSHIP : €1 = 1 cm^2
Have a specific budget or a unique idea? Our standard pricing is approximately 1€ per square centimeter. Contact us, and we will design a tailor-made placement just for your brand!

WHY SPONSOR US?

A WIN-WIN PARTNERSHIP

Supporting Eure4trophy is much more than funding a student trip. It is a strategic investment in a meaningful, long-term project. Here is what your company gets in return:

UNIQUE VISIBILITY IN THE HEART OF EUROPE'S LEADING TECH HUB

Unlike other 4L Trophy cars that disappear after the race, our Renault 4L is a sustainable legacy. Before, during, and long after the rally, the car will be proudly parked at the EURECOM campus in Sophia Antipolis. Your brand will gain daily exposure to hundreds of future IT and Data Science engineers, professors, and tech professionals in the region.

BOOST YOUR CSR (CORPORATE SOCIAL RESPONSIBILITY)

Associate your company's image with strong, positive values. By sponsoring us, you are actively supporting:

Education & Solidarity: Delivering 50kg of vital supplies to children in the Moroccan desert.

Sustainability: Promoting the circular economy by keeping our restored 4L on the road for future generations of students.

Youth Ambition: Empowering the next generation of engineers to tackle complex, real-world challenges.

HIGH-IMPACT CONTENT FOR YOUR COMMUNICATION

We will provide you with stunning photos and videos of our branded 4L crossing breathtaking landscapes (from the French highways to the Sahara dunes). You can use this exclusive material to energize your own social media, internal newsletters, and employer branding campaigns.

A SMART BUSINESS EXPENSE (SPONSORSHIP)

Sponsoring our adventure is considered a commercial sponsorship. Because your logo will be displayed on our vehicle and communication materials, your financial contribution is classified as an advertising expense. This means the total amount is fully deductible from your company's taxable income, making it a highly cost-effective marketing investment.
